7048481836

B.1999, Digvijaysinh comes from Bhavnagar, Gujarat. He completed his postgraduate (2021–23) studies in printmaking at MSU Vadodara and his bachelor's in painting (2017–21) at MSU Baroda. At the core of his practice is a deep exploration of human emotions, which comes from both personal and collective experiences. Whether it's a scene inspired by the vibrant yet contrasting elements of a dream, a poignant story shared by someone, or a quiet moment from everyday life. He is fascinated by how the past overlaps with the present and how memories can shape our perception of reality. He represents fantasies through figurative narrative and dreamy landscapes. He creates spaces where these elements coexist, blending the real and the imagined in a way that feels both familiar and otherworldly. This approach allows him to reflect on the absurdities he observes in life, turning them into visual narratives that explore the depth of human experience. He seeks to navigate the intricate dance between what is seen and what is felt, revealing the layers of human experience in ways that are both genuine and deeply personal.
